Bio:

John Hudak, Jr. was born in Scranton, PA and attended graduate school at the Academy of Art University in San Francisco. His main concentration is Cinematography with editing as a second interest. He began working in film as an assistant cameraman on feature shoots in his hometown. "Reflections", a feature length horror, was his first job as a Director of photography at the age of 21. His love of painting has influenced his eye for cinematography, using the Baroque period as an inspiration and reference. Since relocating to New York City two years ago, he continues to focus on his craft as a DP, and also sustains himself in the Grip and Electric Departments for film and television.

Technical Experience:

Work as a Director of Photography, Gaffer and Assistant Cameraman has given an extensive knowledge and aptitude of HD and film cameras, lighting and electricity for motion pictures.

Director of Photography Experience:
