

Blake Johnson

Occupational Goal Filmmaker, Writer, Digital Artist

Skills

I strive to bring creativity, energy and fun to my work and my life. I love art, technology, and storytelling, and most any chance I have to be around those professionally or personally, I'll take it!

My long-term goal is to be happy working in the entertainment industry and creating content I love. Short-term is to enjoy my work, involve myself in the process of communication and entertainment, stories and art.

I've been trained in with Photoshop, Shake, Boujou , and taught myself Premiere, Final Cut & After Effects for both personal and professional work.

Written several film scripts and treatments in my own time - shorts and features. Passionate about telling engaging stories, creative communication, and fun work.

Experience
